

We care about our planet

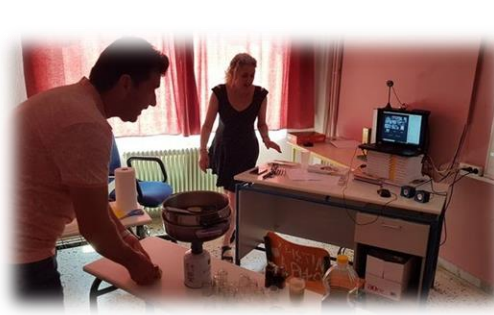

Report of the Greece Virtual meeting

Due to measures taken to prevent the spread of Covid 19, the virtual final meeting in Primary School of Zervochoria , Chaldikiki, Greece , took place online from 28th June- 1st July, 2021.

28th June Monday

The first day of the meeting started with the welcoming programme. there was a virtual tour of the school and Then, after the established greetings between our participants, they presented the education system of Greece through an interesting ppt.

During the workshop , V.Karatziovalis showed us how to make ointment out of wax. The second workshop took place to create a summer creation using simple materials by E. Papakoula . All partners produced their summer creation work at their schools .

29th June Tuesday

The pupils presented their songs, and their traditional dances. We had some information about how to teach English in Greek schools. We enjoyed their dances and we tried to dance in our classrooms.

Each country presented their work

1. "Waste fashion" video— using bottles, paper, old clothes etc to make new ones
2. Project final digital book: "Our Planet in 2050"

a) Signs of Environment- **BULGARIA**

b) sort it out -REUSE _ (glass ,cloth, plastic,paper) **POLAND**

30th June Wednesday

The meeting was held to talk about how to write the final report. We created some project questionnaires and talked about how to do it. Each country is responsible to finish their project final work and share with the partners. The coordinator will create a google app document to discuss and write the final report together. Each partner will contribute to write the final report and to finalize their mobility tool.

1st July Thursday

A presentation and guided tour of the beautiful city of Chaldikiki was shown with a video, and we got to know the rich culture of the country. We watched the students performance

and their beautiful songs. We learned the traditional Greek songs. We virtually observed the classes and lessons, deepening the knowledge of host school educational system.

the Wind and the Sun: A Fable by Aesop was presented by the students using the recyclable materials and costumes.

Workshop 3: M.Papardeli showed us how to make frames using recyclable materials. All the participants did their beautiful frames using pistachio shell, stones, dried flowers.

Last activity of the meeting was the delivery of the certificates and to say goodbye and meet in a new projects.
